

**PCBCONTRACTORS.COM**

*Delivering a wide range of projects within the local construction, government and defence industries.*

## **ABOUT US**

Proudly Western Australian owned and operated, PCB Contractors bring together an experienced leadership team who boast a history of delivering a wide range of projects within the local construction industry.

Locally based in Yangebup, our success is based on our strong understanding of the local market, an unblemished safety record and robust management systems, all of which combine to exceed our clients' expectations in everything that we do.

Underpinned by our core values, we take great pride in providing exceptional service, people and technology to deliver a wide range of projects that stand as a legacy for generations to come.

## TECHNICAL SERVICES

Providing our valuable clients with a true end-to-end service, PCB Contractors can comfortably manage small to medium sized projects from concept to completion and can service a wide range of specialist industries including:

- Infrastructure •
- Medium rise commercial •
- Contamination removal •
  - Heavy lift •
  - Defence •
- Building refurbishment and extensions •

Furthermore, our experienced team can also provide bespoke project management and construction management services should it be required.

If you are seeking specialised review services, our team will work with you to deliver a range of reviews including Constructability, Safety in Design (SiD) and Risk analysis.

# OUR CAPABILITY

## WHY CHOOSE PCB CONTRACTORS?

Put simply, we provide you with a one-stop-shop service for a range of small to medium projects, no matter the complexity.

With an in-depth understanding of the various forms of project delivery including Managing Contractor, EPC/EPCM, Design and Construct, supply or labour hire, you can be sure that we will work with you to safely deliver your projects in a cost-effective manner.

Our locally based team has extensive experience across a range of sectors and industries including Defence, oil and gas, mining, commercial and heavy construction and the contamination sectors.

## OUR PROCESS

We strongly believe that in order for a project to be successful, it has to be a collaborative effort from the outset. From day one, we will work with you to understand the drivers for your project and your business, including your unique time, cost and quality requirements.

After this initial meeting, we will develop a comprehensive project execution plan that will guide us throughout every stage of project execution. As you would expect from the experienced PCB Contractors team, we will seek to achieve the highest levels in quality, value for money and timeliness.

Once the project has been completed, we will undertake a range of comprehensive delivery reviews and implement the lessons learned into future projects so as to facilitate continuous learning in everything that we do.
